

## **PUBLIC NOTICE**

The Iowa Department of Natural Resources (DNR) is proposing to issue a modified Title V Operating Permit to Winnebago Industries, Inc. This facility is located at 605 West Crystal Lake Road, Forest City, IA 50436. DNR is currently reviewing a permit application submitted by Winnebago Industries, Inc. to modify operations at their existing Motor Home Production Facility.

Winnebago Industries, Inc. is required to obtain a significant Title V Operating Permit modification pursuant to 567 Iowa Administrative Code (IAC) 22.113. This modification will result in changes in the facility's annual potential to emit the following air pollutants:

PM-2.5 (particulate matter 2.5 microns or less in diameter): an increase of 4.13 tons

PM-10 (particulate matter ten microns or less in diameter): an increase of 4.13 tons

Particulate Matter: an increase of 4.13 tons

Sulfur Dioxide: No Change

Nitrogen Oxides: No Change

Volatile Organic Compounds: an increase of 6.00 tons

Carbon Monoxide: No Change

Lead: No Change

Hazardous Air Pollutants: an increase of 2.50 tons

Based on the information provided in the application for Title V Operating Permit modification, the DNR has made an initial determination that the facility meets all the applicable criteria for the issuance of a significant permit modification specified in 567 IAC 22.107 and 567 IAC 113.

A copy of the Fact Sheet (which describes the facility and summarizes the permit review) and a copy of the draft modified Title V Operating Permit are available for public inspection at the:

Forest City Public Library

115 East L Street

Forest City, IA 50436

Phone 641-585-2112

These documents are also available on the Air Quality Bureau's website at:

<http://www.iowadnr.gov/InsideDNR/RegulatoryAir/OperatingPermits/DraftFinalPermits.aspx>

For additional information or for a copy of the draft permit or fact sheet contact:

Julie Duke

Iowa Department of Natural Resources

A complete record of the permit modification review, including the application and the draft permit, is available for public inspection Monday-Friday, 8:00 a.m. - 4:30 p.m., at the DNR address shown above.

The public comment period for the draft permit will run from 3/22/2017 through 4/21/2017. The beginning date of this public comment period also serves as the beginning of the U.S. Environmental Protection Agency's (EPA) 45-day review period, provided the EPA does not seek a separate review period. During this time, anyone may submit written comments on the permit. The comments shall be limited to the proposed changes to the permit. Mail signed comments to Julie Duke at the DNR address shown above.

Written requests for a public hearing concerning the permit may also be submitted during the comment period. Any hearing request must state the person's interest in the subject matter, and the nature of the issues proposed to be raised at the hearing. DNR will hold a public hearing upon finding, on the basis of requests, a significant degree of relevant public interest in a draft permit. Mail hearing requests to Julie Duke at the DNR address shown above.

DNR will keep a record of the issues raised during the public participation process, and will prepare written responses to all comments received. The comments and responses will be compiled into a responsiveness summary document. After the close of the public comment period, DNR will make a final decision on the application for permit modification. The responsiveness summary and the final permit will be available to the public upon request.
